

POINT OF CARE TESTING (POCT) AUTO CHEMISTRY ANALYZER

SMT-120 Auto Chemistry Analyzer is a biochemical analysis system that integrates conventional biochemistry, coagulation, electrolyte and immunoassay items. It is widely used in primary health, emergency diagnostic testing, field rescue and other fields.

SMT-120

AUTO CHEMISTRY ANALYZER

Equipped with the latest medical and technological innovations, we have invented a state-of-the-art portable SMT-120 Auto Chemistry Analyzer which provides a better, faster and more accurate diagnosis for blood analysis.

Test up to 34 parameters in total

Test results in 12 minutes

3-step simple operation

ADVANTAGES

Low Sample Consumption

Sample Volume needed is 1/10 - 1/20 of conventional chemistry analyzer.

Easy to Use

No professional skill required.

Maintenance Free

Robust analyzer, no consumables needed, such as tubes, pumps and valves.

Accurate Result

Using the photoelectric colorimetric principle, the SMT-120 analyzer has many advantages versus conventional dry biochemistry analyzer using the light reflection method. Dilution of test sample is guaranteed Without random errors or cross contamination.

SPECIFICATION

Sample volume:	100µl	Testing method:	End point, kinetic, fixed time, turbidmetry etc
Bar code:	QR code	Light source:	12V/20W, Halogen tungsten lamp with life span over 2500 hours
Testing time:	12 minutes / sample	Power supply:	AC 100V-240V, 50-60Hz
Temperature:	37°C ± 0.3°C	Power:	Output: 15 7.0a, 105W MAX
Resolution:	0.001Abs	Display:	Android 7.0 inch 800*480, multi-point capacitive touch screen, multilingual choice
Absorbance:	0-3.0Abs	Storage:	500,000 results
Sample type:	Anti-coagulation whole blood, serum, plasma	Printer:	Built-in thermal printer
Work condition:	Temperature:10-30°C Humidity: 30%-70%	Interface:	4 USB ports, 1 LAN port
Testing principle:	Absorption spectroscopy, transmission turbidimetry	Dimension:	305*335*390mm. 5kg(N.W.), 7kg(G.W.)
QC&Calibration:	IQC (Intelligent Quality Control)		

EASY 3-STEP OPERATION

All steps are automated from centrifugation, dilution, quality control to test result printing.

01 Add Sample (100 μ L)

02 Insert Disc (12-minute testing time)

03 Read Results (immediately)

DISPOSABLE REAGENT DISC

Seamaty Reagent Disc Introduction

Born from space technology research, Seamaty reagent disc is a fully self-contained single-use chemistry reagent disc designed to satisfy a variety of conditions. Just 3-4 drops (100 μ l) of whole blood are required to offer accurate results. The test kit consists of lyophilized reagent beads, diluent and QR code. The reagent disc has a shelf life of 12 months(2-8 $^{\circ}$ C storage). The diluent is contained in the disc. The QR code includes the basic information of the disc.

Intelligent Quality Control

The reagent disc contains a complicated internal quality control system IQC which continuously monitors the disc function to ensure reaction stability and optimal disc performance. IQC is the engine that drives the SMT-120 accurately and precisely.

Correlation

In countless central-lab correlation studies, the accuracy, precision and reproducibility of the SMT-120 Auto Chemistry Analyzer has been proven and approved by the most respected hospitals and commercial around the world.
